# Instructions
## CSE 300: Online 1
## Section:
## Time: 2:40pm-3:30pm

1. Download the paper titled **Generative Adversarial Networks** at the following link:
   https://arxiv.org/pdf/1406.2661.pdf
2. You only need to write the following sections:
   - 3 Adversarial nets
   - 4 Theoretical results
   - 5 Experiments
3. For **algorithm**, **proposition**, **theorem** and **proof** in section 4:
   - Do not use any algorithm related package.
   - Try to mimic as closely as you can.
4. Make sure you correctly refer to the **equations**, **sections**/**subsections**, **figures** and **tables**.
5. The citations will not be checked in this assignment. So, you can put the numbers in the square bracket as they are where citations have been used.
6. You may copy paste from the PDF file to save some time. But be careful to carefully format everything according to the actual presentation at the PDF file.
7. The figures can be found in the following link:
   https://drive.google.com/drive/folders/1fuVewlKKwzarxLrXi0Y_cVylJNWZ3-2c?usp=sharing
